## COVID-19 Vaccination Information Guide

All persons 65 and older, within San Diego County, are eligible to receive the COVID-19 vaccine. You must first contact your primary medical provider to request vaccination. If you are unable to receive your vaccine through your doctor, you may use one of the San Diego County or California State vaccine distribution sites.

**An appointment is required and space is limited.**

There are three ways to schedule an appointment:

1. SD Vaccination Website - Vaccine appointments may be made online through the San Diego County COVID-19 website. If you or someone you know has internet access, visit **VaccinationSuperstationSD.com**
2. Call 211 - Only those who are 75 years and older may schedule a vaccine appointment over the phone. Call 211 and follow the prompts to be directed to a County representative who can assist you.
3. California State Vaccination Site - The California Department of Health is currently prioritizing vaccine distribution to healthcare workers and those 65 and older. Visit **MyTurn.CA.gov** to determine if you are eligible and to schedule an appointment.
